

WEBINAR

MINING EQUIPMENT, TECHNOLOGY & SERVICES OPPORTUNITIES IN INDIA

ABOUT THIS WEBINAR

This webinar will provide an overview on the mining landscape in India, current developments and trends in the Indian mining sector and opportunities for Australian METS companies.

WHY YOU SHOULD ATTEND

- Learn about:
 - priorities of the Indian Government and the Indian private mining sector
 - opportunities for Australian METS companies
 - market entry strategies and models
 - regulatory and taxation issues
 - upcoming events and business networking opportunities.
- Hear from Indian mining experts and a private company on their perspectives on entering the market and working in collaboration with Indian companies.

KEY MARKET TRENDS

- The coal mining sector in India opened up for commercial mining in February 2018.
- There is a significant shift towards:
 - Underground mining in India given the depletion of coal and mineral surface reserves
 - Mining lower grade ores given depletion of higher grade ores.
- The market share of private miners is expected to grow reflecting outsourcing and use of contractors.
- Growing demand for international mining equipment, technology and services (METS) especially in exploration, beneficiation, information technology and digitalisation, skills training, geo-mining consultancy, safety and risk etc.
